The Bible Under the Baobab · Discussion sheet for episode 6

The Tower of Babel

Genesis 11 · For ages 3 to 10 · Video: 8 min 19

The story in brief

The Tower That Was Too Tall. On the plain of Shinar, everyone speaks the same language. The people bake bricks and decide to build a tower that reaches the sky, to make a name for themselves. God comes down, mixes up their language, and they are scattered over the whole earth. Grandma Adjoua tells Kofi and Nia why there are so many languages, and why God understands them all.

Let's talk about it

1. What do the people use to build the tower?
2. Why do they want a tower that reaches the sky?
3. Do you know any words in another language? Which ones?
4. What can we do to understand someone who does not speak our language?

> **Notes for the grown-up.** Bricks and tar. To make a name for themselves and not be scattered over the earth.

To remember

In every language on the earth, God understands us.

The song: God understands every language

One brick, two bricks, the tower climbs to the sky.
In every language on the earth, God understands us!

To do

Learn to say "hello" in three languages, and say it to someone today.
